

The International Microwave Biomedical Conference (IMBioC)

June 14 – 15, 2017
 PENNSYLVANIA CONVENTION CENTER • PHILADELPHIA, PA, USA

The International Microwave Biomedical Conference (IMBioC) is as an international forum for the exchange of ideas and information on state-of-the-art research in microwave and RF theory and techniques that bridge the science and engineering gap as applied to biological systems. This conference is an ideal forum for sharing new ideas on emerging techniques and applications.

The 2018 IMBioC will be part of the Microwave Week in parallel to IMS2018 (International Microwave Symposium), RFIC 2018 (Radio Frequency Integrated Circuits Symposium) and ARFTG 2018 (Microwave Measurement Conference) in Philadelphia.

IMBioC EXHIBIT & SPONSORSHIP OPPORTUNITIES

New this year you have the opportunity to continue your exhibition to the end of the week! Become an exhibitor at IMBioC and reach a whole new audience.

Exhibitor \$1,000 (one 6 ft table and 2 chairs)

Sponsor packages (coffee break and printing):

Diamond sponsor \$3000 including the first prize \$300 for student paper (One (1) company limit).

Gold sponsor \$1500 including the second prize \$200 for 2 student papers (Two (2) available, 2nd prize, shared by all Gold sponsors).

Silver sponsor \$1000 including the third prize \$100 for 3 student papers (Three (3) available, 3rd prize, shared by all Silver sponsors).

Coffee break sponsorship at the poster/exhibition/paper competition period \$2,000 (Two (2) available).

Coffee break sponsorship in the morning \$1,500 (Two (2) available).

Reception Sponsor on Friday, June 15, 2018 – \$2,000

2018 IMBioC EXHIBIT AND SPONSORSHIP OPPORTUNITIES

IEEE International Microwave Biomedical Conference IEEE-IMBioC 2018

IMBioC®

June 14-15, 2018
Pennsylvania Convention Center, Philadelphia, USA

www.imbioc-ieee.org

The 2018 International Microwave Bio-Conference (IMBioC 2018) will be held on June 14-15, 2018 in the Pennsylvania Convention Center, Philadelphia, USA. It will be co-located with the 2018 International Microwave Symposium (IMS), RFIC, and ARFTG conferences as part of the **2018 Microwave Week**.

IMBioC is an international forum for the exchange of ideas and information on state-of-the-art research in microwave and RF theory and techniques that bridge the science and engineering gap as applied to biological systems. This conference is an ideal forum for sharing new ideas on emerging techniques and applications.

IMBioC was merged from IEEE BioWireless Conference (annual) and IEEE MTT IMWS-Bio workshop (International Microwave Workshop Series on RF and Wireless Technologies for Biomedical and Healthcare Applications, 2013-2015). The first IMBioC was held in 2017 at Gothenburg, Sweden. IMBioC is sponsored by IEEE MTT-S (Microwave Theory and Techniques), APS (Antenna and Propagation) and EMBS (Engineering in Medicine and Biology) societies. The papers presented in the IMBioC are rigorously peer-reviewed and indexed in IEEE Xplore.

IMBioC2018 conference topics are published on the conference website. The topics mainly focus on biomedical applications of electromagnetic waves, radio frequency signals, and microwaves with new characterization methods, devices, and systems. The applications are novel and pioneering for not only clinical fields but also the microwave industries.

Past BioWireless and IMWS-Bio events had 100-250 participants with oral and poster presentations and exhibition. Participants include researchers, students, engineers, medical professionals and policy administrators. IMBioC2018 will have a particularly specified time slot and hall room for exhibition, poster viewing, and student paper competition with refreshment served on June 15. It is expected to have more than 150 preregistered participants. And more people will attend from the co-located 2018 IMS, RFIC, and ARFTG. IMBioC2018 is seeking sponsorships and is open for exhibition. For details, please see the attached Exhibit and Sponsorship form.

For information inquiry, please email to imbioc18chair@gmail.com.

General Chairs

J.-C. Chiao, Univ. of Texas – Arlington

Arye Rosen, Rowan University

Technical Program Co-Chairs

Steve Wright, Texas A&M University

John Volakis, Florida Int'l University

Changzhi Li, Texas Tech University

Exhibition & Sponsorship Chair

Perry Li, Abbott Laboratories

Complete list of steering committee is at the conference website.
