

Neelakantan (Neel) Krishnan (Communications Society) is a Ph.D. candidate and research assistant with WINLAB, Rutgers University, NJ. He obtained his bachelors in electrical engineering in 2014 from the University of Calicut, India, where he won the institute gold medal for outstanding academic achievement and holds a masters in electrical engineering from Rutgers University. He has interned with Ericsson (Piscataway, NJ), Schlumberger-Doll Research Center (Cambridge, USA), and Nokia Bell Labs (Sunnyvale, CA). His interests lie at the intersection of analytical modeling and experimental validation using hardware, particularly in the realm of distributed MIMO, massive MIMO, MU-MIMO, and wireless network design (Wi-Fi and LTE).
